

Windows

Looking out has never looked so good

New windows can really enhance the look of your home, both from the inside and out. And we offer a wide range of styles, to suit both traditional and new-build properties.

Opt for traditional white frames, or a natural woodgrain effect in golden oak, rosewood or mahogany. Then decide if you'd like Georgian, stained, diamond lead or bevelled glass.

What about the style of window? Vertical sliding windows are a really popular choice. These combine the traditional look of sash

windows, with modern features that make them very easy to clean, and extremely long lasting.

Whatever style you go for, you'll find our windows aren't just pleasing on the eye, they're practical too, requiring minimal maintenance and their good looks will last well into the future.

Combine the traditional and the modern with vertical slider windows

“Attractive, durable and weather-resistant windows that complement the rest of your home.”

Manufactured to the highest standards, our windows never warp, bend or degrade - so they last and last.

The new Sac shootbolt system - security you can rely on.

However important windows are to the style of your house, the security they offer is even more important. And the more confident you feel inside your home, the happier you'll be...

Our new Sac shootbolt system is specially designed to be flexible and adaptable. It also takes pressure away from the hinges, ensuring a longer life for your windows – and the tight seal guarantees superb weather protection too. So you'll feel safe and secure in every way.

- 8 Point locking system with unique corner drive design on all windows regardless of size
- Unique full depth eurogroove lock-out design to maximise security performance
- 400% more shootbolt contact area with keep when compared to traditional flat shootbolts
- Modern contemporary design with options of composite or zinc keeps
- Unique anti-slip and lock detail to shootbolt head
- Supaglide gear box action, tested to 100,000 cycles. (equivalent to 30 years of heavy use)
- Rigorously tested to BS7950 and beyond to achieve Secure by Design status
- Progress Plus - anti break-in guarantee for peace of mind

SAC SECURITY PROGRESS PLUS
Guarantee Scheme

1. Sac are confident that your windows, fitted with the Sac Shootbolt Lock and approved hinges will resist forced entry.
2. Should forced entry be achieved, Sac will repay any insurance excess payable under your home contents policy, up to a maximum sum of £1000.00.

“Attractive, durable and weather-resistant windows that complement the rest of your home.”

Hard wearing, durable windows.

It's all in the design.

When you buy any of our PVC-u windows, you'll be benefiting from a range of advanced design features which are built-in as standard.

Manufactured from high quality 70mm PVC-u, all of our windows feature a special in-built 'chamfered' system so they look slimmer than they actually are. Fusion-welded mitre corners add strength and weather resistance. And the 'five chamber' construction method means rainwater always drains towards the outside of the pane.

The result is great looking, hard wearing and easy-to-maintain windows that really add that special something to your home.

“The highest performance windows – we wouldn't put our name to anything else.”

Externally beaded with secure glass clips, or internally beaded for extra security

Approved to BS 7412

White, light oak and rosewood finishes (woodgrain on white) or fully foiled on brown profile

Conforms to BS 7479 for salt resistance – ideal for homes near the sea – as well as BS 1004

Express your individuality with our specially designed range of arched and round windows.

Attractive, durable and weather-resistant windows that complement your home and are kind to the environment.

You don't have to choose between elegance and practicality. With Duraflex, you can have both. After all, the right window can make all the difference to a room, so it's important for it to look the part – and be reliable and cost-effective, too.

Contemporary or classic, white frames or wood grain, stained or beveled glass... it's up to you. And whatever you choose, you can expect minimum up-keep and maximum efficiency. Style and performance – the best of both worlds.

Duraflex products are BFRC rated and carry the Energy Saving Recommended logo. For more information take a look at the section at the back of this brochure...

Our glass - efficient and tough

We aim to use glass with a U-value of 1.73wlm2k which offers 30 per cent better insulation than some conventional insulating glass units. This results in cheaper fuel bills.

Also available in patterned glass, it ensures double glazing is as effective as triple glazing.

Toughened glass increases the impact resistance by up to five times that of annealed glass. Meets the safety requirement BS 6206 Class A, while laminated glass meets BS 6206 Class 8.

Argon-filled sealed units are also available.
